EXPERIENCE

ProGlove · Munich, Germany · Jan 2018–July 2018

SOFTWARE DEVELOPMENT INTERN

Time series analysis of RF telemetry data using InfluxDB, Node-RED, and Grafana.

Developed software using Python, Flask, and serial interfaces for sales engineers to use at industrial trade fairs in Europe and the USA, where we collected over 700 leads.

Tank Design · Cambridge, MA · Jan 2017–Sept 2017

WEB DEVELOPMENT INTERN

Created a human resources portal with Drupal hosting documents for employees of Samuels & Associates.

Built a website and system of responsive SVG icons for FedEx internal developers.

Developed components and pages for the TEDxCambridge website redesign.

Soli · Boston, MA · Oct 2016–Feb 2017

UI DESIGN LEAD

Designed and developed the homepage and marketing pages for an early-stage shopping rewards platform with WordPress. Integrated MailChimp to create an early access sign-up system.

PROJECTS

Gorgiality (AngularJS)

Sole developer for an art gallery showcase website

Thrifty (MEAN stack)

Full stack developer for an online used clothing marketplace

Planet Queen (jQuery, Sass)
